Important Safety Notice – Stop Sale Notice

Dear Distributor:

Our records indicate that you ordered an AYC or HBAYC model chain set for use with one of the following Metalux brand light fixtures: F-Bay HB/2HB; F-Bay 2HBHD; F-Bay HBE; F-Bay HBHT; F-Bay HBI; F-Bay HBL; Arctic Bay AB; Arctic Bay ABI; or F-Bay 2HE Series 2HE.

Cooper Lighting recently learned that an “S” hook on the chain connecting the fixture to the ceiling can straighten if the chain is used in combination with one of the above-listed light fixtures in a high abuse environment. Our evaluation indicates that this should only occur if the fixture is hit repeatedly with a ball or similar object. Therefore, the firm believes that the only chain sets that are affected are those used with the above-listed lights that have been installed in gymnasiums or similar recreational facilities. Based on this information, we have decided to discontinue further sale of the chain sets with the specific lights noted above until we investigate further and consult with the U.S. Consumer Product Safety Commission. As a result of this decision, you must also immediately stop selling these chain sets with the above-described fixtures. In addition, please immediately provide a complete list of customers and end users that purchased the AYC or HBAYC chain set and, if possible, indicate whether the chain set was purchased with one of the above-listed lights for use in a gymnasium or similar recreational facility. We appreciate your cooperation.

Please contact us at 1-800-954-7228, 8 a.m. to 5 p.m. EST, Monday through Friday, if you have any questions or concerns.
